Summary

Software Engineer Intern at Intraedge developing **scalable full-stack systems** using **Java (Spring Boot)** and **React**. Experience in designing **RESTful APIs**, implementing **Docker-based CI/CD pipelines**, and applying **enterprise-grade security (RBAC/OWASP)** in Agile environments.

Education

Banaras Hindu University (BHU)

Master of Computer Applications (MCA) – CGPA: 8.65/10

June 2026

Varanasi, UP

Shri Ramswaroop Memorial University

Bachelor of Computer Applications (BCA) – CGPA: 8.58/10

May 2024

Lucknow, UP

Technical Skills

Languages: Java (Object-Oriented Programming, Collections, Multithreading), JavaScript (ES6+), SQL, HTML, CSS

Frameworks: Spring Boot 3, Spring Security, Spring Data JPA (Hibernate), React, Node.js, Express, Tailwind CSS

Databases: PostgreSQL (RDBMS), MongoDB, Supabase

Cloud & DevOps: AWS (EC2, S3), Docker, CI/CD (GitHub Actions)

Tools & Testing: Git, GitHub (*Version Control System*), Postman, Jira, Linux, JUnit

Experience

Intraedge

Jan 2026 – Present

Software Engineer Intern

Remote

- Architected an **inventory management system** using **Java (Spring Framework, Spring MVC)**, **React**, and **PostgreSQL**, reducing tracking errors by **40%** through analytical problem-solving and automated reconciliation.
- Secured **15+ REST APIs** by implementing **Spring Security** with **Role-Based Access Control (RBAC)** and applying **OWASP Top 10** security practices to ensure strict data privacy.
- Engineered a **CI/CD pipeline** using **Docker** and **GitHub Actions**, cutting deployment lead time by **50%** while troubleshooting deployments and runtime issues while maintaining **99.9% environment parity**.
- Delivered the production-grade solution across the full SDLC within a strict **6-week Agile timeline**, managing 4 major milestones via **Jira** and maintaining high code quality with **80% unit test coverage** using **JUnit**.

Projects

CoDevSpace | *React, Node.js, Socket.IO, MongoDB, Supabase* | [Live](#) | [GitHub](#)

June 2025 – Nov 2025

- Engineered a real-time collaborative IDE with **sub-100ms latency**, supporting synchronized editing for 8+ languages using Socket.IO.
- Integrated **Piston API** to enable secure, sandboxed code execution, while architecting a **MongoDB** schema to persist chat logs and session data with **100% integrity**.
- Implemented robust identity management using **Supabase OAuth**, ensuring secure authentication and strictly scoped access control for all user sessions.
- Automated deployment workflows via **GitHub CI/CD**, reducing release cycles by **40%** and achieving **99.9% system uptime** across Netlify (Frontend) and Render (Backend).

Developer Portfolio | *React, Tailwind CSS, Vite* | [Live](#) | [GitHub](#)

Mar 2025 – May 2025

- Designed a responsive, performance-optimized portfolio using **React** and **Tailwind CSS**, developing **10+ reusable components** to ensure UI consistency and code maintainability.
- Optimized frontend performance by migrating to **Vite** and implementing **lazy loading**, achieving a **35% reduction in load time** and perfect **100/100 Lighthouse scores** for SEO and Accessibility.
- Integrated **EmailJS** for serverless contact form handling and established a **Netlify CI/CD pipeline** to ensure seamless continuous deployment.

Achievements & Certifications

- 600+ DSA problems solved** across coding platforms, including **425+ on LeetCode**.
- Top academic performer:** 3rd rank (MCA – *Pursuing*), 2nd rank (BCA), and **Top 5** in Class XII (**93%**).
- 1500+ GitHub contributions** in the last 12 months; earned certifications in **Frontend Development (Scrimba)**, **REST APIs (HackerRank)**, and **Data Structures & Algorithms (PW Skills)**.
